Dear Hiring Team at BC Housing,

I am excited to apply for the Application Developer position at BC Housing, as advertised. With a Bachelor of Science in Computer Science from Simon Fraser University and considerable experience in software development, I am eager to contribute to your mission of providing safe, affordable, and quality housing across British Columbia. Simon Fraser University During my tenure as a Software Developer intern at

Redmane Technology, I gained valuable experience in small to medium-sized projects, IT solutions and services, and complete lifecycle application development projects. My ability to work closely with project managers, business analysts, and technical resources has allowed me to develop strong communication, interpersonal, and problem-solving skills, which I believe are essential for success in this role.

I am confident in my ability to analyze, design, develop, test, and maintain software applications to support BC Housing's business objectives. Additionally, my experience in creating and updating technical and user manual documentation using strong technical writing skills will enable me to contribute effectively to your team.

I am particularly drawn to BC Housing's commitment to employee development, work-life balance, and creating a positive impact in communities. The opportunity to work in a hybrid work environment with access to in-house training, wellness programs, recognition initiatives, and community involvement resonates with my values and career aspirations.

Thank you for considering my application. I am looking forward to the possibility of contributing to BC Housing.

Warm regards,

Harmeet Rai
